## Introducing 2

Reta A. Underwood (C-NM, RAC-CT, Medicare Specialist), is president of **Consultants for Long Term Care**, a national long-term care consulting firm based in Kentucky. CLTC has provided management services, presented seminars, been published nationally and copyrighted its own systems and tools.

Reta's experience has included management and director positions with nursing facilities and health care companies. She has also provided corporate-wide MDS support services, numerous mock surveys, regulatory compliance correction, educational programs, clinical documentation, quality assurance programming, and has implemented PDPM in facilities nationwide. Most recently Reta has focused on improving the post-acute care experience nationally for some of the most vulnerable of populations.

Post Acute Care and its many definitions!

## PAC Defined

**Post Acute Care (PAC)**  
 PAC includes **rehabilitation or palliative services that beneficiaries receive after, or in some cases instead of, a stay in an acute care hospital.**

Depending on the intensity of care the patient requires, treatment may include a stay in a facility, ongoing outpatient or care provided at home.

# The Budget will set the Stage

Early planning offers advantages in spending costs.

Decide where it is okay to skip and those items that are not.

Budget strategies include – Bulk purchasing, donations\*, fund raisers, split the cost, charge to attend or to participate, require an RSVP or reservation needed, etc.

Grade your event levels so that the 'community' knows what to expect will help ensure budget limits are met.

I.e.: Family and Friends Event, Community Invited, Outing to, Facility Wide, etc.
